

Welcome to EstateMate!

A mobile tech company with the focus on creating a one-stop ecosystem for residential and commercial communities.

Download the App.
Register.
Login and play.

It really is that simple.

EstateMate is great on the web and on mobile

Just some of our exciting features...

Contact Security

Use the security panic button to request immediate security response, send a community alert or an anonymous tip-off

General Estate Info

All the information you need about your estate, from rules and regulations, to management details, to contracted service providers

Push Notifications

Management can push notifications, news or feedback to either all app users or selected app users

Report Issues

Residents can report anything from general maintenance, to security concerns, to general complaints. Management is immediately notified through the app and can therefore address issues quickly and efficiently

Voting

Use the app to create a poll for your users, either for all to vote, or target a user type to vote. A great feature for decision making

Request Approvals

Would you like to approve your cute pet? Or are you wanting to enclose your patio? Use the app to request approvals. Management can approve or reject the requests with ease, notifying you of the decision in no time

Receive Your Bills

Receive and view your Levy bills on the app and get notified when new ones arrive

Discussion Forum

Do you need to get feedback, opinions or input for a decision or subject taking place in your estate? Then create a topic on the forum and open it up for discussion with the relevant residents

Service Providers

Use the app to quickly and conveniently get quotes or contact a service provider: From plumbers to painters, from refuse removal to domestic cleaners
