## Rules and Code of Conduct

### Welcome To Grotto Bay Private Nature Reserve

In order to avoid run-ins with our security personnel please respect our Nature Reserve and other guests and residents by adhering to these most obvious rules.

#### No Open Fires

Fire is a constant threat due to our Strandveldt vegetation. Fires are only permitted in designated fire places and braai areas of residences.

#### No Loud Noise

Ensure that your music or any other noise emanating from your house or vehicle does not cause an inconvenience to other residents.

#### No Exterior Lights

Please do not leave outside lights on as our wild life appreciates darkness at night. We do not have street lights for this reason.

#### No Picking Plants

Picking or removal of any fynbos, plants or flowers from the estate or the reserve outside of a private property is strictly prohibited.

#### No Dogs or Pets

Visitors staying in rented holiday accommodation are not allowed to bring any pets onto the Estate.

#### No Smoking

No smoking is permitted on the back of an open vehicle or while walking in the estate or nature reserve area.

#### Traffic Rules

The speed limit on the estate is strictly 40km/h. Obey all traffic signs and road rules. Pedestrians and children have the right of way.

#### Walking After Dark

During hours of dark any guest wanting to visit the beach or go for a walk outside the secure perimeter must first inform security.

We hope you enjoy your stay in the safety and tranquility of Grotto Bay. Please read our estate rules to view the full extent of the rules.

**GBHOA thanks you for your co-operation.**
